SHEFFIELD, ALABAMA 35660

(256) 381-7457 (FAX) 386-5526

February 3, 2006

This is to certify that I have the responsibility for the protection of our customer data. As a paging company we have no call records on our customers as all traffic is incoming only. Our customer information including address, pager number and rates are kept strictly confidential. Our policy for over twenty years has been that no one except the customer who signed the service contract can be informed of any part of the customer's information and that person must come into our office in person with identification unless we already recognize them. No information is given to anyone not meeting these requirements and no one is given information over the phone unless we contact them and have knowledge that it is the contract signer. None of our CPNI is available over the internet.

I certify this information to be true to the best of my knowledge.

Signed - Glenn Stephenson, Technical Director, Vice President
